Documentation of English LaTeX-Titlepages at the Chair of Information Systems, esp. Systems Engineering

Effective: 26th October 2012
Author:

Malte Helmhold

Contents

1 General

Before you can use the english Titlepages you must declare the en-Option in the `\documentclass`-Command.

Appendix A   Seminartitlepage

For a \seminartitlepage-command you need 4 parameters (in this order):

1. an english Title

2. at least one Name of Student

3. at least one Supervisor

4. the responsible department (english or german)

Please insert the following code on the correct place (between \begin{document} and \begin {preface}) of your document:

```
\seminartitlepage
{English Title}
{Name of Student 1 (Matr. Nr.)\\
Name of Student 2 (Matr. Nr.)\\
Name of Student 3 (Matr. Nr.) }
{Title and Name of Supervisor 1\\
Title and Name of Supervisor 2\\
Title and Name of Supervisor 3 }
{Department}
```

Of course you normally will use ordinary parameters: One Name of Student and just one Supervisor like the following example (please adapt the framed source code and insert it in correct position of your document):

```
\seminartitlepage
{English Title}
{Name of Student (Matr. Nr.)}
{Name of Supervisor}
{Department}
```

Technische Universität Dresden

Department of Business Management and Economics
Chair of Information Systems,
esp. Systems Engineering

English Title

Seminar Paper
for Attainment of a Seminar Attestation
required by §7 of the Exam Regulations (Department)

Name of Student 1 (Matr. Nr.)
Name of Student 2 (Matr. Nr.)
Name of Student 3 (Matr. Nr.)
Supervisor: Name of Supervisor 1
Name of Supervisor 2
Name of Supervisor 3
Dresden, 26th October 2012

Appendix B   Doubleseminartitlepage

For a `\doubleseminartitlepage`-command you need 6 parameters (in this order):

1. An english title

2. A german title

3. At least one name of student

4. At least one supervisor

5. The responsible department (german name)

6. The responsible department (english name)

Please insert the framed sourcecode into your document in order to get an english/german seminarTitlepage. You can see an example on follogwing two pages.

```
\doubleseminartitlepage
{English Title}
{German Title}
{Name of Student 1 (Matr. Nr.) \\
Name of Student 2 (Matr. Nr.) \\
Name of Student 3 (Matr. Nr)}
{Title and Name of Supervisor 1 \\
Title and Name of Supervisor 2}
{Department (for english titlepage)}
{Fakultät (Department) for german titlepage)}
```

Please note the output for this source code on following page.

Of course you normally will use ordinary parameters: One Name of Student and just one Supervisor like the following example (please adapt the framed source code and insert in correct position of your document):

```
\doubleseminarTitlepage
{English Title}
{German Title}
{Name of Student 1 (Matr. Nr.)}
{Title and Name of Supervisor}
{Department (for english Titlepage)}
{Fakultät (Department) for german Titlepage)}
```

Technische Universität Dresden

Department of Business Management and Economics
Chair of Information Systems,
esp. Systems Engineering

English Title

Seminar Paper
for Attainment of a Seminar Attestation
required by §7 of the Exam Regulations (Department)

Name of Student 1 (Matr. Nr.)
Name of Student 2 (Matr. Nr.)
Name of Student 3 (Matr. Nr)
Supervisor: Title and Name of Supervisor 1
Title and Name of Supervisor 2
Dresden, 26th October 2012

Technische Universität Dresden

Fakultät Wirtschaftswissenschaften
Lehrstuhl für Wirtschaftsinformatik,
insbesondere Systementwicklung

German Title
